Skills

Git, Java, Docker, MYSQL, Spring, HTML, Console, Android, JS, Node, NestJS, Express, Scrum, Ubuntu, Windows, Selenium, DataStudio.

Experience

2018–Now **Talento ConCrédito** Culiacán, Sinaloa
Developer

Create, Modify, Maintain and deploy API's, in the develop, QA and production environment. Our API's help to provide a financial solutions simplify by technology.

Work with the scrum methodology.

Version control of our projects using git.

Use the Google Data Studio tool to create reports that represent indicators of the systems.

Use Docker to help us through containers to implement tools in a matter of seconds without the need to install anything. It's multiplatform, which guarantees that the availability of our application works independently of the operating system.

2018–2018 **ConCrédito** Cuiacán, Sinaloa
Tester

- Analyze systems functional models.
- Create test cases for the systems.
- Run test cases.
- Create automatized tests using selenium.
