Outline

LEHIGH UNIVERSITY

Disclaimer

- ▶ THIS IS NOT AN OFFICIAL LEHIGH TEMPLATE.
- ▶ Several students attending the LTS Seminar wanted to use it so that I put it in a format that is usable.
- ▶ Modify if you have suggestions to improve it and pass on the modifications so that anyone interested in using LaTeX for presentations could benefit.

How to

- Place the contents within your TEXINPUTS path.
- On Linux, modify the TEXINPUTS variable to point to the directory where these files exist.
- For example: `export TEXINPUTS=${HOME}/LaTeX//:${TEXINPUTS}`
- On MacTeX, you need to install it to ${HOME}/Library/texmf
- If you have admin permission copy it to your TeX tree to the directory where the other beamer themes are located e.g. /usr/share/texmf-texlive/tex/latex/beamer/themes
- To use the theme, add the command `\usetheme{lehigh}` to the preamble of your document.
- Compile using pdflatex to get the pdf file.
- Feel free to modify the theme to suit your needs.
- NO, I won't modify the theme for your needs.

- 'quote' or 'quote'
- "double quote" or "double quote"
- " ' " `
