

Pomona Linguistics L^AT_EX Paper Template: Replace this with your title

Your Name Here
September 4, 2019

Abstract

Here is where you write the abstract of the paper.

1 Introduction

- [This paper template](#) has been designed to simplify the L^AT_EX-learning process for Pomona Linguistics students wanting to use it to write papers/assignments. By clicking on the “[open as template](#)” link that brought you here, you now own this Overleaf project and can replace the text in this document with your own paper.¹ If you managed to find this as a PDF, you can find the template on Overleaf.
- This template uses the set of packages and commands that are in the LgcsFormatting.tex document that you can see in the file list to the left of your screen. We don’t explain here the full range of things you can do with this template: for that, please see our [Pomona Linguistics Quick Reference Guide](#).

2 Some Basics of L^AT_EX

2.1 Useful commands for text formatting, some that we built for you

(1)

Symbol/Annotation	Example	Code
Ellipsis	...	<code>\dots</code>
Subscript	NP _i	<code>NP\subs{i}</code>
Superscript	NP ⁱ	<code>NP\supers{i}</code>
Bold	bold	<code>\textbf{bold}</code>
Italic	<i>italic</i>	<code>\textit{italic}</code>
Small Caps	SMALL CAPS	<code>\textsc{small caps}</code>
Strikeout	strikeout	<code>\sout{strikeout}</code>
Underline	<u>underline</u>	<code>\underline{underline}</code>
circle something in text	something	<code>\circled{something}</code>
Highlight something	something	<code>\hl{something}</code>
Null	∅	<code>\nothing</code>
Theta	ϑ	<code>\texttheta</code>
Phi	φ	<code>\ph</code>
Hash	#	<code>\#</code>
Label a left bracket	[_{VP} kick it]	<code>\Lb{VP}</code>
Label a right bracket	[[kick] _{rt} ed] _{wd}	<code>\Rb{rt}, \Rb{wd}</code>
Trace with index	t _k	<code>\tr{k}</code>
Bar-level node	X'	<code>X\1</code>
Head Node	X ^o	<code>X\0</code>

¹This also means you will probably want to rename the project - you can do this by hovering your cursor over the title “Pomona Linguistics LaTeX Template” at the top of this page, and then clicking on the pencil icon that appears to the right of the title. You can also rename the PomLingTemplate.tex file in the leftmost panel by clicking on the down arrow.
