

# Weekly Homework 1

Tony Stark  
Introduction to Abstract Algebra

January 16, 2018

For this assignment, I watched the following videos:

1. Grit: the power of passion and perseverance by Angela Lee Duckworth
2. Replace with title for video 2
3. Replace with title for video 3
4. Replace with title for video 4
5. Replace with title for video 5

Replace this text with your reflection. Your total reflection should be at least 10 sentences long. You should comment on each of the videos you watched, but rather than reflecting on each video separately, try to reflect on growth mindset, productive failure, and grit, in general.
